a PennEngineering[®] Company

- All new Quarter-Turn Mount (QTM), designed to work with all versions of the standard 80/20 rail and racking system in the market today.
- Simple application by hand with quick twist 90 degrees for friction fit swivel hold in place and high pull out retention
- Simply twist to remove for routing and location adjustment
- Holds up to 2 cables between .230 .315" (5,8 - 8,0 mm) each.
- Cables install with fingertip pressure.
- Design provides high axial retention with one cable and even better with both cable bays filled.
- · Material choices cover a number of application requirements for flammability and temperature.

- All new Quarter-Turn Mount (QTM), designed to work with all versions of the standard 80/20 rail and racking system in the market today.
- Simple application by hand with quick twist 90 degrees for friction fit swivel hold in place and high pull out retention.
- · Simply twist to remove for routing and location adjustment.
- Gather and direct single or bundles of wires at low cost.
- Vertical for top entry and narrow width for easy application of wires and small footprint.
- Latch gate locks cables in place.
- Latch gate releasable for repair, replace or addition to previously placed wires.
- · Material choices cover a number of application requirements for flammability and temperature.
