Cable Stacker:

Conveyor cable routing, redefined.

MADE FOR REAL ⊕

Ultra-organized cable runs – from the planning stage to completion.

- Isolate cables, relieve congestion and improve aesthetics.
- EZ Build engineering simplifies the build, tear-down and reassembly process.
- Eliminate waste, rework and installation time.

Cradle Pocket (x3)
Separate power and signal runs.

EZ Feed Cable Tie Slot (x3)
Insert cable tie if needed.

EZ Feed Cable Tie Groove (x3)
Cinch down bundle if needed.

EZ-in / EZ-out Retention Pin (x4)
- Retain wires during build out.
- Easy future access to add or remove wires.

Quick Mount Options
- Screw or rivet for surface mounting.
- M6 (#10) holes and slots for easy positioning and adjustability.

CutZone (x3)
Safely remove cable tie.

Screw Mounting Bases

Cable Stacker

HellermannTyton's Cable Stacker is a cable management and mounting device used to organize wires and relieve congestion along wire pathways found in conveyor systems and automation equipment. These mounts offer individual cradle partitions that lead to faster installs, reduced rework and improved appearance and aesthetics. The EZ Build concept holds cables in place by the shape of the stacker unit and retention pins, separating cable types and eliminating the need for cable ties. Cable Stackers are secured to surfaces using two screws.

Features and Benefits

- Multiple cradle pockets separate power and signal runs.

- EZ-in / EZ-out retention pins retain wires during build out and allow future access to add or remove wires.

- EZ Feed cable tie groove for cinching down bundle if needed.

- CutZone creates guide for safely removing cable tie.

- Quick mount options using M6 (#10) screws in holes or slots for easy positioning and adjustability.

MATERIAL	Polyamide 6.6 high impact modified, heat and UV stabilized (PA66HIRHSUV)
Operating Temperature	-40°F to +230°F (-40°C to +110°C)
Color	Black (BK)
