## Cable Tie Mounts

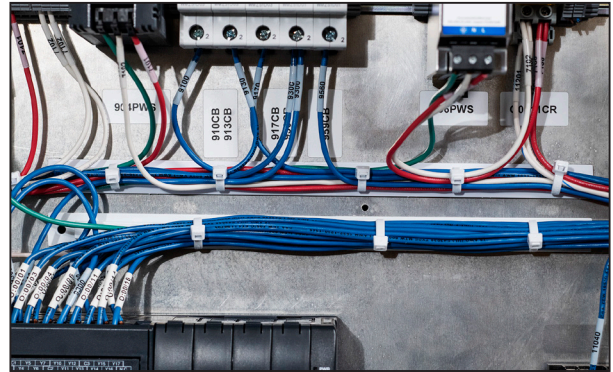

### Adhesive Mounting Bases

#### WireRail Cable Routing Bases

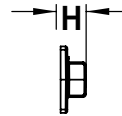

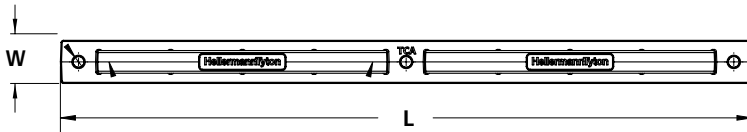

The WireRail routing aid combines heavy duty strength and adhesion with high aesthetics and versatility. The 12-inch-long footprint creates perfectly straight vertical or horizontal cable routings. Eight cable tie slots offer flexibility in anchoring wire runs. Choose from acrylic- or rubber-based adhesive, depending on application and mounting environment. One WireRail can replace several square adhesive mounts, for part and labor savings.

#### Features and Benefits

- Extended-length mount streamlines routing of longer wire bundles in straight-line applications.
- Multiple cable tie slots offer routing flexibility during cable installations.
- Extra-large adhesive footprint will outlast smaller square mounts.
- Mounting holes allow for optional mechanical fastening if desired.
