

ND COLOR CODE

Fastener Identification

DESCRIPTION:

ND Industries® has developed special processing equipment for applying paint, dye or ink in virtually any color to the heads or tips of fasteners. Color-coding parts makes it easy to identify specific characteristics, such as:

- | | |
|---------------------------|-------------|
| Locking or Non-Locking | Size |
| Right or Left-Hand Thread | Material |
| Sealing or Non-Sealing | And More... |
| Unusual Dimensions | |

FEATURES:

Assures Quality Control: ND Color Coding facilitates proper assembly and inspection procedures.

Expedites Assembly Process: Easily identifiable parts speed any assembly process.

Simplifies Inventories: Color-coded parts are easy to identify and inventory.

Versatile Processing: Color-coding can be applied to fasteners of any size, shape, material or finish in any quantity, from small lots to million-part production runs. ND can also dual process color-coded fasteners with other quality ND fastener locking and sealing applications.

ND Color Code is a product of ND Industries, Inc., U.S.A.
