

ND Pell-It® Soft Touch Tip

Cushioned Contact

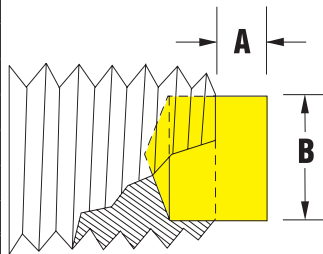

DESCRIPTION:

- ND Pell-It Soft Touch Tip is a pre-applied, environmentally friendly pellet of material inserted in set screw or bolt ends. The Pell-It permits full-face, cushioned contact with a curved shaft while ensuring a secure hold. ND Pell-It Soft Touch Tip is highly reusable and, depending on the type of material used, can be utilized in high temperature applications.
- ND Industries will install ND Pell-It Soft Touch Tip into your fasteners or supply you with factory pre-installed ND Pell-It Soft Touch Tip fasteners. ND Pell-It Soft Touch Tip is normally available in Nylon or Brass, although other materials are available.

THREAD SIZE	"A" TIP PROTRUSION	"B" TIP DIAMETER
#4	1/32	1/16
#6	1/32	1/16
#8	3/64	3/32
#10	3/64	3/32
1/4"	1/16	1/8
5/16"	3/32	3/16
3/8"	3/32	3/16
1/2"	1/8	1/4

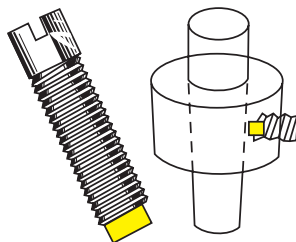

Dimensions are for reference only.

- ND can make any of your fasteners self-locking and self-sealing, utilizing a wide variety of unique products and processes.

APPLICATIONS:

- ND Pell-It Soft Touch Tip is ideal for applications where it is necessary to make repeated adjustments to a gear or pulley on a shaft. This unique anti-marring fastening method will not raise burrs, thus circumventing break downs.

FEATURES:

- Protects:** ND Pell-It Soft Touch Tip prevents marring and scratching caused by metal-to-metal contact.
- Insulates:** In applications where an electrical current is present, Nylon ND Pell-It Soft Touch Tip acts as a nonconductor, insulating metal-to-metal contact.
- Versatile:** ND Pell-It Soft Touch Tip can utilize a number of materials to match your unique application requirements.
- Saves Time:** "Pell-Itized" fasteners can be automatically fed through standard feeding devices - speeding up your process and improving productivity.
- Resists Heat and Cold:** ND Pell-It Soft Touch Tip meets and exceeds IFI Specifications 124, 524, and military Specification MIL-DTL-18240F Type N for temperatures up to +250°F (up to + 120°C).
- Resists Chemicals:** ND Pell-It Soft Touch Tip is virtually impervious to a wide range of chemicals, water, and motor fluids. Pell-It Soft Touch Tip will not dry, shrink, or lose resiliency when exposed to commercial solvents, alcohol, gasoline, oil, caustic soda, jet fuel, and many other chemicals.
- Outstanding Reusability:** "Pell-Itized" fasteners can be reused repeatedly without damage to threads

SPECIFICATIONS:

Primary Usage	Anti-marring locking device
Reusability	Highly reusable, depending on the material used.
Material	Nylon, Brass, and other materials.

ND Pell-It is a product of ND Industries, Inc., U.S.A.
